B.S in Computer Science GPA: 3.52

Relevant Coursework: Data Structures and Algorithms, Operating Systems, Artificial Intelligence, Object-Oriented Programming, Network Security, Data Mining, Web Development, Database Management.

PROJECT

Choc An 04-2023 – 06-2023

With a team, build Choc An, a computerized system that enables participants to pay a monthly fee and obtain limitless consultations and treatments from medical professionals like internists, nutritionists, and fitness specialists.

Virtual Field Environment 01-2024 – 06-2024

With a team, build Virtual Field Environments (VFEs) for Elementary and High School Science education. VFEs are a series of 360° panoramic images that are loaded with “hotspots” that bring up various types of A/V media.

Date time Calculator

A simple calculator with three date/time-related features:

- Calculating the number of days between two dates.
- Calculating the date some multiplied interval after a start date.
- Calculating all recurring event dates and times between two dates
